

NAUTILOID

COLLECTION

Earth is over 4.5 billion years old, and the stories can be read in the rocks - each fossilised shell a masterpiece crafted by nature with a silent tale enclosed. A sculpted harmony between engineered art and the natural world, NAUTILOID references the form of seashells from an ancient time.

With pearl-like skin reflecting ocean's time and space, their spiral curves create an intricate net following a mysterious path based on the Fibonacci sequence. Organic yet precise, each chamber is a testament to proportion and timeless modernity.

The curvaceous NAUTILOID seating range offers supreme comfort at multiple heights, created with a latticed form that extends out with wrap-around arms, blending down to slender rod framing. Elegant and robust, the design is suitable for the indoors and outdoors, whilst its stackability makes NAUTILOID appropriate for both residential and commercial spaces.

The unique design of the NAUTILOID tables echo with the geometry of nature's art, inspired by the quiet logic of a scallop shell with its concave, fanning-out structure.

Three different height table frames can be used independently as low tables, and each can be joined together, in any combination, to create various heights matching with all the seating options. Tabletops offered in solid aluminium or porcelain, in a range of sizes.

NAUTILOID collection comprises seating and tables, chairs, counter stools, bar stools, and lounge chairs. Skilfully fabricated using a combination of stainless steel with metal, polycarbonate feet, zinc protection and powder coat finish.

<p>MATERIALS</p> <p>Stainless steel with metal. Polycarbonate feet. Zinc protection. Powdercoat finish. Optional seat jackets in premium quick dry exterior grade foam.</p>	<p>FINISHES</p> <p>Ivory white powdercoat finish. Tabletops in solid aluminium or porcelain. CARE INSTRUCTIONS:

- Dust and wipe powder-coated frames with a soft, damp cloth.
- Didier recommends always reading the label of any cleaning products and not using cleaning agents containing abrasives or solvents.

ENVIRONMENTAL STATEMENT:

At Didier, we believe good design should enhance life without costing the earth. Our work is rooted in responsibility - sourcing sustainable materials, minimising waste in production and collaborating closely with skilled makers, prioritising ethical supply chains. We design for longevity, creating enduring pieces that stand the test of time. To us, sustainability is not a trend, but a guiding principle, that is woven into every stage of our artistic process and every original idea we bring to life.
